

AQUAMARINA

The background of the image is a close-up, macro shot of numerous ice crystals. The crystals are in various stages of formation, with some appearing as sharp, angular shards and others as more rounded, layered structures. The color palette is a range of blues, from light, airy sky blues to deep, dark navy blues, with white highlights where the light catches the facets of the ice. The overall texture is intricate and crystalline.

FLOOR PLAN TYPE A | FIRST FLOOR

The background of the entire image is a close-up photograph of numerous blue-tinted ice crystals. The crystals vary in size and shape, some appearing as sharp, angular shards while others are more rounded and layered. The lighting creates a range of blue tones, from light, airy hues to deep, dark blues, giving the scene a textured and crystalline appearance.
